

Where's the Beef?

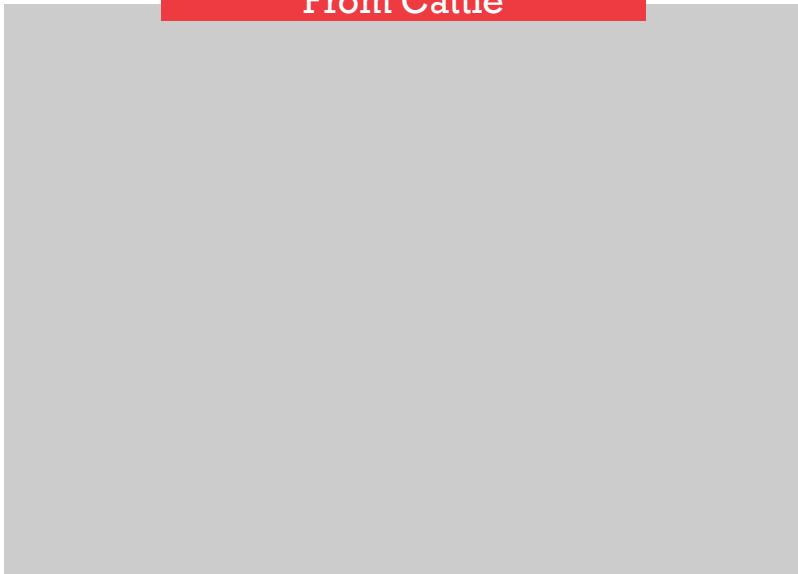

Beef Products & By-products

GRADES K-2

Farmers raise and care for animals to provide us with foods and products we can use. Beef animals provide us with delicious and nutritious beef food products, like steak and ground beef. These are the main products of the beef animal, but the other parts of the animal that we can't eat are used to make by-products. We get lots of by-products, like baseballs and paint, from the other parts of the cattle that don't give us meat.

From Cattle

From Other Farm Animals

Cut out the images of the products and by-products from farm animals below. Sort them into the correct box above to match the farm animal that provides them for us to eat or use.
